NETWORKING

Applied at TCS

Cisco-to-Aruba Migration | Legacy Network Migration | Device Configuration | VLAN Configuration | Connectivity Troubleshooting | Incident Management | Technical Documentation

Fundamentals

TCP/IP | DNS | DHCP | HTTP/HTTPS | SSH

Lab practice only

Cisco Packet Tracer

DEVELOPMENT

Flutter | Dart | Node.js | Express.js | JavaScript | Python | REST APIs | PostgreSQL | Prisma | MongoDB

SYSTEMS & TOOLS

Linux (Ubuntu, Kali) | Windows | macOS | Docker | Git/GitHub | Postman

EDUCATION

B.Sc. Network Systems & Administration
SLCS College · 2018 – 2021

LANGUAGES

Tamil – Native
English – Professional

Sivakumar Angusamy

IT Professional · Networking & Software Development

PROFILE

IT professional with a B.Sc. in Network Systems & Administration, combining enterprise networking experience at Tata Consultancy Services (TCS), including a Cisco-to-Aruba legacy network migration, with hands-on software development in Flutter and full-stack web and mobile applications. Skilled in network device configuration, connectivity troubleshooting, incident resolution and technical documentation, with working knowledge of TCP/IP, DNS, DHCP and Linux.

EXPERIENCE

Network Engineer & Procurement Support — 2021 – 2023

Tata Consultancy Services (TCS)

- Contributed to a Cisco-to-Aruba solution as part of a legacy network migration for an enterprise environment.
- Configured and migrated network devices, including VLAN configuration, to support the transition from the legacy network.
- Diagnosed and resolved connectivity, hardware and software issues affecting enterprise users.
- Resolved incidents and service requests, and monitored systems to support stable day-to-day operations.
- Maintained technical documentation and coordinated with cross-functional teams for timely resolution.
- Supported procurement operations alongside network responsibilities.

Flutter Developer — 2025

Wizinoa Technologies

- Developed cross-platform mobile applications with Flutter, integrating REST APIs and backend services.
- Fixed bugs, optimized application performance and improved UI/UX.
- Worked with backend and QA teams to deliver production-ready applications.

Full-Stack Developer — Present

Freelance

- Designed and developed web and mobile applications for clients using Node.js, Express.js, PostgreSQL, Flutter and Python.
- Built REST APIs and database-driven applications; managed deployment with Docker and Linux servers.
- Provided technical support, bug fixes and ongoing maintenance.

NETWORKING PROJECTS & LABS

- **HomeNet Monitor** (personal project)**:** real-time network monitoring dashboard tracking home router and internet connectivity; records latency and outages in a local SQLite database and visualizes network health through charts, topology maps and alerts. github.com/sivakumarangusamy/homenet-monitor
- **Cisco Packet Tracer Labs** (hands-on practice, not production experience)**:** building and configuring simulated network topologies to strengthen routing, switching and connectivity fundamentals.
